Re: Letter of Support - All Clams on Deck – Gulf Coast Restoration Initiative

Dear Ms. Baker,

Please accept this correspondence as The Environmental Conservancy of North Port, Inc.'s letter of support for the All Clams on Deck – Gulf Coast Restoration Initiative. We are proud to join you in your quest to pursue multiple biological mitigation strategies to address nutrient loading in our coastal estuaries and agree we must act now and come together with voices of many conveying the same message to our Federal and State governments that we can wait no longer.

Cordially,

A handwritten signature in blue ink that reads "Barbara Lockhart".
