All Clams on Deck
P.O. Box 1478
Anna Maria, FL 34216

Dear All Clams on Deck Team,

We are writing in strong support of your mission to protect our waterways and facilitate healthy ecosystems. Waterway Advocates enthusiastically backs your Gulf Coast Restoration Initiative, and we believe that your efforts to increase estuarine resilience by restoring seagrass and clam populations are some of the most innovative in the field. Please accept this letter as a note of appreciation for your dedication to our communities.

We consider ourselves a strong ally and look forward to your continued critical contributions to healthy habitats.

With gratitude and respect,

Caleb Merendino and Benjamin Swanson
Co-Founders and Executive Directors
